TECH STACK

FRONTEND

- React.js
- Next.js
- TypeScript
- Tailwind CSS
- JavaScript (ES6+)
- Responsive Design
- Modern UI Components

BACKEND & DATABASE

- Node.js
- Express.js
- MongoDB
- PostgreSQL
- Supabase (BaaS)
- RESTful APIs
- Authentication

TOOLS & SKILLS

- Git & GitHub
- Postman (API Testing)
- Agile Development
- Debugging & Testing
- API & AI Integration

ABDULLAH ASLAM

FULL-STACK WEB DEVELOPER

PROFESSIONAL SUMMARY

Driven Full-Stack Web Developer and 7th-semester Computer Science student with hands-on experience building scalable web applications using the MERN and PERN technology stacks. Skilled in architecting responsive, user-centric interfaces, developing secure backend systems, and designing modern dashboard experiences with clean, maintainable code. Passionate about integrating AI-powered capabilities, optimizing application performance, and delivering production-ready software through collaborative Agile development.

WORK EXPERIENCE

- MERN Stack Developer Internee** Jan 2026 – May 2026
Softcodec
 - Collaborated within an Agile development team to engineer "Worknex", a full-scale freelance marketplace platform, contributing to production-quality features and real-world application workflows.
 - Developed reusable React components, optimized frontend state management, and implemented scalable UI patterns that improved maintainability and accelerated feature development.
 - Integrated RESTful APIs, handled dynamic data flows, and resolved complex frontend challenges while maintaining clean code standards, responsive design, and consistent user experience.

FEATURED PROJECTS

- Worknex — Freelance Marketplace Platform** MERN STACK
 - Engineered a full-scale freelance marketplace inspired by modern service platforms like Fiverr, supporting structured user workflows and scalable application architecture.
 - Collaborated in a team environment to implement modular routing, reusable frontend components, and efficient data management across multiple application modules.
 - Built dynamic interfaces that streamlined user interactions, improved navigation flow, and ensured responsive performance.
- Codefix — Developer Productivity Hub** PERN STACK
 - Architected a comprehensive developer platform combining productivity tools, community collaboration (Stack Overflow style), and AI-powered functionality.
 - Developed a community-driven Q&A system, integrated PDF conversion utilities, and implemented advanced AI API features to enhance developer workflows.
 - Designed a clean application architecture with clear separation between authentication pages and protected dashboard modules.

EDUCATION

- BS in Computer Science (BSCS)** Oct 2023 - June 2027
University of Gujrat
Ongoing — Semester 7
- ICS (Physics)** Sept 2021 - June 2023
Punjab College, Wazirabad
